Do you have a colour preference _____

Note we cannot always guarantee the colour or size as rescues come in all shapes and sizes but are poodles - no cross breeds.

See back over page for more information →

The Poodle Club of Qld Inc. offers the rescue and rehome service on a voluntary basis, we source poodles from breeders who request a pet home for ex breeding dogs, retired show dog or puppies who sometimes have minor conformation faults.

As every dog who comes through to be rehomed has a unique background it is especially important to place them into just the right setting, therefore we need to ask questions, check out the premises, and assess suitability for older dogs who will need time to become familiar and settled in their new environment.

Thank you for completing this preliminary form, once returned further contact will be made to discuss your application.
